TOTAL EXPERIENCE

15 YEARS

OBJECTIVE

To work with and become a part of an esteemed & dynamic organization as a Electrical Technician where I can utilize my potential and talent to their best, where I can implement my experimental work and learn more from my Seniors & perform my duty safely, honestly & regularly.

EDUCATION

DEGREE	UNIVERSITY/BOARD
Associate Engineering in Electrical	PBTE LAHORE PAKISTAN
Matric (Science)	BISE LAHORE PAKISTAN

DRY DOCKS WORLD DUBAI

SEP 2012 TO TILL NOW

Working as Electrical Technician

- Single phase and three phase meter installation, connection, repairing, testing and calibration.
- Operation & shutdown Maintenance for Maintenance and Process Plant Site.
- CT and PT meter installation, connection and repairing.
- Cable tray installation, field devices installation, on/off switches, field JBs.
- Repairing and replacement of industrial power outlets.
- Installation, Repairing and Maintenance of Service Pillars.
- Termination of Power cable from Substation to Load.
- Good experience to use Multimeter, Insulation tester, Vibration meter, Thermometer.
- Over load, phase sequence relay and other electrical equipment.
- Preventive Maintenance, Corrective Maintenance, Oil Testing, Silica Gel Replacement and Field Servicing of Transformers.

- Checking of cooling systems of Transformers.
- Troubleshooting of all control, Power & lighting circuit.
- Checking & testing circuit breakers and replacing them where required.
- Maintenance of DOL, Star Delta, revers forward power and control circuit.
- Installation of MOTOR STARTER.
- Preventive maintenance and greasing of motors according to schedule
- Installation of MCB, MCCB, RCCB.
- Repairing and replacement of sensor solenoid limit switch contactor
- Modification and changes in electrical circuits.
- Maintain the temporary supply networks.
- Repair and maintenance of holding electrode ovens.

MILLAT TRACTORS LTD. (DEC 2006 TO AUG 2012)

Worked as Electrical Technician

- Trouble shoot and maintenance of industrial oven to control with thermostat and temperature controller.
- Installation of CCTV.
- Troubleshooting of power and control circuits.
- Installation of Cylinder Block and Cylinder Head line Plants.
- Installation of RLC and PLC Machines.
- Troubleshooting of RLC and PLC Machines.
- Maintain the Cooling Tower.
- Repairing & Replacement of Sensors, Pressure Switch, Limit Switches, Solenoids.
- Operating change over manual mode and maintain the load.

HIGH-TECH ENGINEERING PVT LTD. JUL 2005 TO JUL 2006

Worked as Electrical Technician

- Terminations the temporary supply generators on site.
- Installation the mercury lamps on site as pre scope.
- Troubleshooting electrical panels for temporary on site.
- Preparing Daily Production Report and keeping in log.
- To submit request for inspection of work and co-ordinate with consultant.
- Cooperate actively with the electrical Supervisors.
- Checking & auditing tools & materials to be used on site for job.

TRAININGS

- First Aid & Fire Fighting.
- Electrical Isolation System.
- PTW (Permit to Work) LOTO (lock out and tag out)
- Human safety & equipment safety.
- General safety and Accident prevention.
- Power Tools
- Work at Height & Basic rigging
- Confined space entry

SKILLS

- Presentation, Analytical and Management skills.
- Tech. Report Writing
- Communication Skills
- Knowledge transfer skills
- Hardworking & ready to accept challenge
- Good Experience about Electrical Operations and Maintenance
- Good speaker of English, Urdu

COMPUTER SKILLS

- Microsoft Office Excel make sheet and use formulas
- Microsoft Office Word
- MS PowerPoint
- Internet Research
- Emailing
- Electronic File Management
- MS Outlook
- Presentations
